

Proofpoint Managed Email Threat Protection

Let our skilled professionals protect you from advanced email attacks

Products

- Proofpoint Email Protection
 - Proofpoint On Demand
 - Proofpoint Protection Server
- Proofpoint Targeted Attack Protection
- Proofpoint Threat Response Auto-Pull

Key Benefits

- Get customized service and guidance from the leaders in email security
- Improve security posture and visibility
- Operate efficiently with predictability and cost effectiveness

Proofpoint Managed Email Threat Protection provides you with highly skilled experts to help you maximize your investment in our advanced email security products. The program reduces your operational overhead by letting you leverage our skilled experts, who improve your risk posture and ensure that you stay ahead of advanced attacks.

With a flat annual fee, our program is cost-effective and provides budget consistency. The program also delivers executive summaries and reporting to show your stakeholders how your security posture improves over time and how your investment is producing healthy returns.

Take Your Email Security to the Next Level

Proofpoint Managed Email Threat Protection helps you protect against ransomware, business email compromise (BEC) and other threats that come from email, the No. 1 threat vector. We use the latest intelligence and our extensive knowledge of the threat landscape to ensure your defensive systems stay ahead of advanced threats. Your protection will be consistent, and you will always receive the latest features and releases. We also provide continuous monitoring and adjustments of your configuration.

Maintain Operational Consistency Without Staff Downtime

With Proofpoint Managed Email Threat Protection, you will work with a highly skilled in-house Proofpoint team, so your staffing and retention situation will not impact your security posture. This means you won't need to struggle with finding the right staff to manage your email security. And you won't have to dedicate months to ramp up the new employees to full productivity after you've hired them. You also won't need to worry about retaining them after you brought them up to speed.

You can choose from 9x5 or 24/7 service delivery options.

Get Continued Buy-in with Proof of Success

From functional incident reporting and tracking to meaningful executive summaries, we provide the reporting and program management you need to ensure you get continued buy-in from critical stakeholders. Proofpoint Managed Email Threat Protection provides reports to prove how your security posture is improving. You can also access unique insights, like our Very Attacked People™ (VAPs) and regular health checks. These provide clear context about how and why threats target your organization.

We will work with you to access this critical data and update you on other reporting enhancements. Your teams can leverage the data to start conversations with internal stakeholders and key executives.

Managed Services Framework

Proofpoint Managed Email Threat Protection is built upon the Proofpoint managed services framework. This framework provides a structured and standardized approach to comanaging your security solution efficiently and effectively.

Let our experts optimize your system's performance and provide proactive recommendations to ensure your security operations are well-maintained and aligned with your business objectives.
