

PROOFPOINT INTELLIGENT SUPERVISION COURSE

PROOFPOINT ACCREDITED ADMINISTRATOR

The Proofpoint Intelligent Supervision course provides you with instruction on basic use of this feature, including message review and monitoring. This 2-hour web-based training course is based on Proofpoint Enterprise Archive version 4.0. It is designed for users and administrators who need to use and interpret items on the dashboard, access and review assigned messages, search for and review assigned messages, create an export job and share the results, and select and create reports and alerts.

Take the exam to test your knowledge and earn your Proofpoint Accredited Administrator certificate for Essentials. You need a passing score of 75% to get certified. There are no prerequisites for this course.

COURSE OUTLINE

Module 1: Intelligent Supervision Overview

Review the needs addressed by Enterprise Archive and the features and benefits of Intelligent Supervision.

Module 2: The Dashboard

Interpret and use items on the Intelligent Supervision dashboard based on your assigned role, quickly identify a backlog and access the message review screen.

Module 3: Message Review

Access, review and act on assigned messages, view a violation and its text, filter contents of the message list and view messages in a conversation thread.

Module 4: Past Review and Search

Use Past Review to see actions taken on messages, use Find Related to search for similar messages in the full Archive and use Search to locate and group messages for review.

Module 5: Exports

Create an Export job to a selected format, identify the meaning of the Export job status, and share, upload and download export results.

Module 6: Reports and Alerts

Select and create appropriate reports as required, create reports for immediate display, schedule reports to run at set times and create and share alerts with specific individuals.

Exam: PAA for Proofpoint Enterprise Archive Intelligent Supervision Exam

Test your knowledge and earn the Proofpoint Accredited Administrator for Proofpoint Enterprise Archive Intelligent
