

PROOFPOINT THREAT RESPONSE FOR SECURITY ANALYSTS COURSE

PROOFPOINT ACCREDITED ADMINISTRATOR

The Proofpoint Threat Response for Security Analysts course walks you through processes to help you respond to incidents from multiple sources. The course is based on Threat Response version 3.2 and is recommended for security analysts who use Threat Response to identify, analyze and respond to threats.

Take the exam to test your knowledge and earn your Proofpoint Accredited Administrator certificate for Essentials. There are no prerequisites for this course.

COURSE OUTLINE

Module 1: Essentials Overview

Get an overview of Essentials, including the user interface, licensing and common administration tasks.

Module 1: Threat Response Overview

Review the role of Threat Response and where it fits into a security architecture.

Module 2: The Security Administrator Interface

Find out what information is available within the Threat Response interface and how to navigate it.

Module 3: Incidents

Use Proofpoint Threat Response to investigate multiple types of security incidents.

Module 4: Enrichment

Display and configure information on enrichment sources, discuss the connection between lists and devices and learn how to display and export reports.

Exam: PAA for Threat Response for Security Analysts

Test your knowledge and earn the Proofpoint Accredited Administrator for Threat Response for Security Analysts certificate.
