2021 State of the Phish Report

Proofpoint, has released their annual State of the Phish report that looks at user awareness, vulnerability, and resilience. More data-rich than ever, this seventh annual study features analysis of survey responses, simulated phishing exercises, and real-world attacks to provide insights into phishing and other cyber threats—and what you can do about them.

We surveyed 3,500 working adults and 600 IT security professionals from across the world.

Live Events and Webinars

For Customers: Why and How To Think Like a Hacker
February 17th at 10am PT
Proofpoint’s Resident CISO, Deborah Watson will chat with Ted Harrington, a leader of ethical hackers and the #1 best-selling author of Hackable: How to Do Application Security Right. Ted has helped some of the world’s foremost technology pioneers defend against attackers, and he’s here to tell stories about what they’re doing right (and wrong). As a ‘Thank You’ customer attendees will receive a $25 virtual gift card to redeem at a location of their choice from our prize library.
