## New Assets

**2020 State of the Phish Report:** Download our report to learn how organizations can take a more inward, people-centric view of their vulnerabilities and empower users to become a stronger line of defense.

**Protecting People:** A global cybersecurity analysis of vulnerability, attacks, and privilege. Anyone can be a VAP: Very Attacked Person™ And they’re not always the people you expect.

**2020 Cost of Insider Threats Global Report:** According to a recent Ponemon Institute Study, frequency and cost of insider threats have spiked dramatically in the last two years
- Read more about how ObervIT’s newly acquired technology solves for the costly insider threat problem

Want custom reports mailed to your customers? Contact your CAM or email partners@proofpoint.com to request today!

## What’s up with Symantec?

Still concerned about Broadcom’s new go to market – or lack thereof – with email security? See Proofpoint’s full library of resources to help you move your existing Symantec business to Proofpoint or selling into competitive accounts.

## Protect Tour Roadshow

Our premier cybersecurity event is hitting the road, and you won’t want to miss it! Whether it’s security or digital transformation, business is changing faster than ever. We’ll be sharing the very latest in threat trends and techniques and how Proofpoint’s people-centric cybersecurity can keep you and your customers a step ahead.
