The Proofpoint Threat Response for Security Analysts course walks you through processes to help you respond to incidents from multiple sources. The course is based on Threat Response version 3.2 and is recommended for security analysts who use Threat Response to identify, analyze and respond to threats. Take the exam to test your knowledge and earn your Level One certificate for Threat Response for Security Analysts.

COURSE OUTLINE

Lesson 1: Threat Response Overview

Review the role of Threat Response and where it fits into a security architecture.

Lesson 2: The Security Administrator Interface

Find out what information is available within the Threat Response interface and how to navigate it.

Lesson 3: Incidents

Use Proofpoint Threat Response to investigate multiple types of security incidents.

Lesson 4: Enrichment

Display and configure information on enrichment sources, discuss the connection between lists and devices and learn how to display and export reports.

Exam: Threat Response for Security Analysts - Level 1 Exam

Test your knowledge and earn the Threat Response for Security Analysts - Level 1 Accreditation Exam.
