

UNDERSTANDING EMAIL FRAUD

A GLOBAL SURVEY

Business email compromise (BEC), is one of today's greatest cyber threats to an organization. These highly targeted attacks are being sent in low volumes and are exploiting people rather than technologies to steal money and valuable business information.

Proofpoint research amongst 2,250 IT decision makers across the U.S., the U.K., Germany, France and Australia, shows that:

EMAIL FRAUD IS SOARING

More email fraud attacks are being launched against organizations and more frequently:

75%

In the last 2 years, we found that 75% of organizations were targeted at least once by email fraud.

More than 2 in 5 (41%) said that their business has been targeted multiple times.

41%

77%

And 77% are worried that their company will be targeted by email fraud in the coming 12 months.

CYBERCRIMINALS REACH DEEPER INTO ORGANIZATIONS
