Proofpoint and Sirius

Protect Your People, Data and Brand Against Advanced Threats and Compliance Risks

PRODUCTS

- Proofpoint and Sirius

KEY BENEFITS

- Defend your number one threat vector—your people—with threat protection
- Get visibility into where your sensitive data is exposed
- Educate your people and reduce risk with advanced threat simulation and security awareness training

Attackers will never stop trying to take advantage of your organization's vulnerabilities. As long as threats exist, you need effective security and risk management to counteract them. Besides, today's cyberattacks target people, not technology. That's why the Proofpoint and Sirius partnership gives you a unique advantage. It positions you to tackle the human element of cybersecurity and meet your business objectives.

### A People-Centric Approach to Cybersecurity

Proofpoint offers an integrated suite of cloud-based threat and information and user protection solutions. We help organizations mitigate their most critical security and compliance risks. It spans across email, cloud, social media and the web. Our solutions help you understand the individual risks that people pose. We stop the threats that target them. And we empower them with the tools they need to stay safe and alert.

Sirius draws on decades of experience from across the IT spectrum. It helps you focus on what's valuable. It moves protection closer to the point of risk and adapts your security practices to meet current threats.

With Sirius you get

- World-class technology solutions
- Expert implementation
- Advisory services
- Top-ranked managed services

And you also get proven methodologies backed by customized testing in the Technology Enablement Center. You can advance your security program and optimize your overall IT risk management strategy. It allows you to protect your data, your intellectual property and your brand.

Mitigate User Risk: Blueprint for People-Centric Protection

Our cybersecurity solutions are built on the world's most advanced cloud-based threat intelligence platform. It helps you effectively prevent, defend and respond to today's biggest threats and compliance risks.

Threat protection

Stop email and cloud-based threats, including malware, credential phishing and email fraud.

Information protection

Protect your data across cloud, email, endpoint and on-premises file shares. Defend against insider threats and address compliance needs with a modern security architecture that is easy to deploy and maintain.

User protection

Reduce successful phishing attacks and malware by empowering your people to spot and report unsafe email.

Ecosystem protection

Control access to keep data, users and devices protected no matter where they are, what websites they access or what application they run.

Compliance

Collect, archive, supervise and monitor sensitive data in a compliant and legally defensible manner without the cost and hassle of traditional compliance tools.

Why Proofpoint and Sirus

As a Platinum Partner, Sirius is a top-tier partner in the Proofpoint Channel Partner Program. Within Sirius, a national team of experts hold numerous Proofpoint Accredited Channel Sales Engineer (PACSE) certifications. This gives you the best of both worlds. You get to leverage Proofpoint solutions to meet your cybersecurity needs while meeting your business objectives.
