REGISTRATION

Contact your account representative or Training@proofpoint.com for registration information.

This course trains students in tuning, configuring, monitoring, and investigating typical issues associated with Proofpoint Protection Server Email Data Loss Prevention (DLP). It covers the setup and utilization of Proofpoint's Email product suite for Email Data Loss Prevention features. Additionally, students will learn to utilize the Proofpoint Data Protection Platform Analytics app to view and act on Email DLP Alerts.

Led by a Proofpoint Instructor, the training sessions incorporate lectures, demonstrations, and interactive lab exercises designed to enhance student engagement.

COURSE OUTLINE

- Threat Landscape and SMTP Overview
- Email Protection Infrastructure
- Message Processing
- Quarantine
- Smart Search and Log Viewer
- Proofpoint Encryption
- Data Loss Prevention
- Regulatory Compliance
- Introduction to Proofpoint Data Protection Platform
